Take a deep breath and exhale because you've found your pathway to that perfect sleep with the McCoy 12 Inch King Memory Foam Mattress. Topped with gel-infused memory foam to keep your body climate steady, this firm king mattress dissipates body heat while quickly conforming to your weight and position. Sleep peacefully with an open cell ventilated memory foam solution that relieves pressure points, reduces bounce between two sleepers, and delivers welcome relief from the aches and pains of traditional king mattresses. McCoy cooling gel king mattress is CertiPUR-US certified by accredited independent testing laboratories, so you can be confident that the memory foam is made without formaldehyde, ozone depleters, mercury, and other heavy metals including PBDEs, TDCPP or TCEP ("Tris") flame retardants, and is low on VOC. This 12-inch king size memory foam mattress comes vacuum-packed and rolled to fit into an easily portable box. It takes 2 to 4 hours for the king gel mattress from your bed in a box to expand most of the way and a day to expand fully. Includes a removable stretch knit diamond patterned cover. Box spring or foundation is optional. Slatted bases should be less than 3" apart. Set Includes: One - McCoy 12" King Mattress
