Like a character out of a Japanese calligraphy book, the Keisha Console Table has a personable slant that makes it an expressive decorative element in a space. Perfectly balanced atop two tapered metal legs, the chamcha wood top is one of our rescue pieces: we've saved the slab from being one of nature's finest castaways by turning into a statement piece. This wood console table has an overall style that is fitting for a number of interiors, including contemporary, modern farmhouse, and industrial chic. Because this piece is crafted from natural solid wood, color and woodgrain character may vary, adding a unique personality to each piece. The Keisha reflects the ethos that Phillips Collection personifies: modern organic.
