The Cast Naturals Collection highlights our skills at taking an innovative material and making it feel as if it sprang from nature. The Cast Root Dark Granite Console Table is made of composite that has been molded to look like a piece of harvested wood it took nature eons to create, then finished in dark granite. The advantage of having a console table made from this durable material is that it will long outlast its natural counterparts pulled from the forest floor. This gray console table is the perfect representation of the Phillips Collection ethos: modern organic. We have Cast Root products in a number of configurations and finishes.
