Stoneage Premium Bedroom The side panels of the case goods and bed are the design motif that stands out in the Stoneage Collection. They are made in a generous size and finished with a unique black zebra marble. The case goods side panels work as a vice that holds in place the suspended central body whose drawers are equipped with "invisible" handles to preserve the minimalist modern design. The finish on the drawers features a popular light grey lacquer color. The headboard is made by 2 panels positioned in different planes to create an indentation where is positioned a strip of small led lights. The strip is operated by invisible switches located in each side of the bed and provide courtesy and reading light beside adding esthetic visual appeal to the bed. This modern-midcentury design made with clean lines and neutral colors is an exciting, original design that will never make you tired. All drawers are equipped with high-quality, soft, self-closing, undermount slides with stop safety feature to prevent a full extraction. The smooth and firm opening and closing movement of the drawers convey a sense of luxury. Drawers are completely lined with fabric-like material that is scratch and stain resistant. Bed sides and footboard are assembled with cam-lock hardware that guarantee precision and sturdiness.
