Authentic cowhide brings warmth to any space. Four hides are hand sewn together to create an extra large area rug. A wide variance in color, shape and pattern demonstrates the one-of-a-kind nature of these beautifully exotic area rugs. Reflective of ranchers' unique brandings, markings are to be expected, and speak to the Argentinian origin of each hide. Chromium-free processing ensures eco-friendly tanning without the use of dyes. Examples shown; no two rugs are the same.
