Finding contemporary garden planters with handsome profiles isn't a simple exercise. That's why we created the JP family of planters in a number of sizes and finishes. The fact that they are made of composite makes them easier to move around than their concrete counterparts. The JP Medium Roman Stone Planter has a pale Roman stone finish. We also offer the JP planters in bronze and silver; and we've cleverly taken this design and produced it as a wall planter. Each of these reflects the ethos that Phillips Collection personifies: modern organic.
