J&M is proud to introduce our new Premium Bedroom Collection. Made in Portugal, Europe's furniture center, and hand crafted to perfection by skilled artisans using the latest state of the art technology as well as years of experience; these bedrooms are the pinnacle of artistry in furniture manufacturing. J&M's premium bedrooms are crafted from the highest quality materials. We use hand-selected woods, wood veneers and natural lacquers as well as the finest German hardware by Blum. There is no doubt that these are our finest bedrooms yet. The Faro premium bedroom features a minimalistic, yet classy design which looks striking in any decor. The bed comes in a warm wenge wood veneer, which compliments the low the profile aesthetics. The case goods are also in a wenge wood veneer with light grey high gloss accents. The nightstands, chest, and dresser also feature a glass on top to prevent against damage to the lacquer. These are the same case goods that come with the Porto premium bedroom. As with all of J&M's premium collection bedrooms the case goods come equipped with soft closing tracks by Blum, a world-renowned German manufacturer that sets the standards for the finest quality furniture hardware.
