J&M is proud to introduce our new Premium Bedroom Collection. Made in Portugal, Europe's furniture center, and hand crafted to perfection by skilled artisans using the latest state of the art technology as well as years of experience; these bedrooms are the pinnacle of artistry in furniture manufacturing. J&M's premium bedrooms are crafted from the highest quality materials. We use hand-selected woods, wood veneers and natural lacquers as well as the finest German hardware by Blum. There is no doubt that these are our finest bedrooms yet. The Lisbon premium bedroom features an elegant design beautifully mixing a natural white lacquer finish which looks striking against the warm natural walnut wood veneer. The padded headboard ties the white and walnut with a soothing beige finish. The interplay of walnut with white continues in the night stands, chest, and dresser which feature white glass tops for long lasting beauty and durability. As with all of J&M's premium collection bedrooms the case goods come equipped with soft closing tracks by Blum, a world-renowned German manufacturer that sets the standards for the finest quality furniture hardware.
