Solid and stately, the Elcor Dining Table uses fiber-reinforced concrete to create a modern foundation for entertaining. Developed for Urbia's Mixx collection, this blend of granite stone powder, natural jute fibers, and Portland cement has been sealed to create a smooth surface. Over time the indoor-outdoor piece will develop a unique patina and personality, reflecting the surprising evolutionary nature of its industrial material. This product is handmade from natural materials, primarily Portland cement, by individual artisans in Vietnam. Each item displays a unique patina consisting of natural markings and variation in color. Small hairline cracks and imperfections are normal and to be expected.
