Multi-use, industrial, and urban. This multi-use bench has been sealed to create a smooth surface and features a handle at each end. Over time the indoor-outdoor piece will develop a unique patina and personality, reflecting the surprising evolutionary nature of its industrial material. This product is handmade from natural materials, primarily Portland cement, by individual artisans in Vietnam. Each item displays a unique patina consisting of natural markings and variation in color. Small hairline cracks and imperfections are normal and to be expected.
