The Presidents Side Chair chair draws inspiration from the height of the mid-century modern period. This chair was featured in the televised Kennedy/Nixon debate, cementing its place as a popular fixture in homes dedicated to forward-thinking design. This classic couples easy-going style with comfort, marrying subtle yet sensuous curves with a cozy seat. The Presidents Side Chair works in an almost unlimited number of functions, from dining halls to reception areas. But wherever you find it, it's a great place to sit and either be seen, or sink deep into the comforting embrace of your own thoughts and energy.
